

NINE RIOTERS SLAIN IN MEXICAN CAPITAL

Suffragist Demonstration Leads to Conflict Between Rurales and Mob.

GOV. REDO OF SINALOA SHOT Maderistas Also Execute Federal Commander at Culiacan, and Put to Death 28 Followers of Magon.

Special Cable to THE NEW YORK TIMES.
MEXICO CITY, June 5.—A suffragist demonstration in Santa Julia, one of the poorest districts of Mexico City, tonight resulted in a riot in which rurales had to fire into the crowd to save their own lives. Nine persons are reported to have been killed and a number wounded.

When the women were joined by a large crowd of riflemen and the rurales attempted to arrest a man guilty of stoning. Others resented this action and attempted to take the man away. The rurales first clubbed off the crowd with their carbines and later fired one volley after they had been stoned. Street cars were stoned and many windows broken.

Several riots also occurred this evening in different parts of the city. There was a demonstration tonight in Xochimilco, an important suburb of this city. Many were imprisoned for disorderly conduct. There was much looting in the town.

It was officially announced late tonight that no Maderista forces would be allowed to take part in the celebration of Madero's arrival on Wednesday. Such leaders, with their staffs, are in the city without arms will be allowed to remain, but the rebels who have surrounded this city for several days have been ordered back to Cuernavaca, where Madero will go in a few days after his arrival here to review the Army of the South stationed there, 13,000 strong.

Gen. Luque, with 1,200 men, has been ordered to proceed immediately from the State of Chihuahua to Ensenada, Lower California, to join forces with Col. Mayot and his 300 men. The combined forces under Luque are to put down the Maderistas in Lower California. Flores Magon and his band of revolutionists have been at war with the Government for years.

In view of the entire Maderista force in the vicinity of Chihuahua and of most of the inhabitants of that place five ringleaders in the looting of the town a week ago were shot yesterday. Since then posters have been conspicuous on the street corners announcing that the punishment of the men was intended as an example to others.

The Chinese in their inoffensive helplessness are suffering severely at the hands of marauding bands. Following closely the outrages at Torreon and Tapachula, the Chinese at Cardenas, State of San Luis Potosi, were attacked by a mob and two were killed. A restaurant in which many Celestines had taken refuge was destroyed. The trouble started at a bullfight. Policemen attempted to arrest a drunken bullfighter. The crowd took the man away from the police, who were badly beaten, after which the rioters attacked a nearby Chinese restaurant, with the result stated.

Mexican Railway officials this morning advised the Minister of Gobernacion that unless attacks on their lines and property were stopped at once they would suspend all service between the capital and Vera Cruz. During the preceding period the revolutionists had Mexican Railway, which is an English company, was unmolested, but in recent weeks much trouble has been experienced. Yesterday there was a successful attempt to rob a pay car.

Mimi Argelia, the Sicilian actress, who was marooned in Durango for two months because the rebels had cut the transportation line, arrived here tonight. She says she expects to be reimbursed fully for the loss of her Argentine contract.

GOV. REDO EXECUTED.

Followers of Magon, Classed as Bandits, Also Shot by Maderistas.

RODALTE, Sonora, June 5.—A high official of the Federal troops, who arrived from the South last night, reported that Redo of Sinaloa and the Commander of the Federal troops in Culiacan were shot yesterday at sunrise.

According to the official information, Redo and his Federal forces refused to surrender Culiacan to Manuel Bonilla, the Provisional Governor sent by Francisco I. Madero, Jr. There was some fighting, and the garrison then mutinied, surrendering the capital to the Provisional Government. Redo and the Federal Commander, it is stated, were condemned to death and executed.

CAPITAL BEING DECORATED.

Big Welcome for Madero Arranged—Federal Troops to Line Streets.

MEXICO CITY, June 5.—When Francisco I. Madero, Jr., enters the capital on Wednesday thousands of persons will greet him at the station, and soldiers of the army which he defeated will line the streets. In his honor military bands will play, and the police, whose duty it now is to arrest those who cried "Viva Madero!" will join in the greeting.

But there will be one note of disappointment. The thousands of men who have borne the hardships of war. The revolutionists in Cuernavaca are to have no part in the celebration. This was decided

UNKNOWN IN A CLEAN FACE

But a Wart Behind His Ear Saved Henkle from Being Permanently Lost.

But for the fact that he has a wart behind his left ear, a lost urchin picked up by the Brooklyn police, would still be in the hands of the Children's Society in that borough as an unclaimed waif. Completely disguised by a clean face, the youngster, the fatherless parent, who yesterday visited the society's shelter a second time and looked him over more carefully.

The lost one, a three-year-old boy, was found wandering the streets of East New York on Sunday afternoon. He was taken to the shelter in Schermerhorn Street, where by a vigorous application of soap and water his cherubic features were brought to light. It was then seen that instead of a brunette, he was really a blond. The transformation was completed when he was dressed in clean clothes.

"It ain't Henkle," decided the father finally. He walks like him, but that ain't Henkle's face. The mother, who was unable to open the safe, the combination going wrong, and believing there was a large amount of money in it they shipped the safe to the plant here that it might be opened.

A representative of the Tusca bank and a representative of the First National of this city were present when the safe was opened. To their surprise only 10 cents was found. What became of the thousands of dollars is not known here. There is a report that an employe of the bank is missing, but this has not been stated as a fact. The safe weighed about 1,000 pounds.

Prof. Wheeler, whose resignation from the Yale Faculty has been accepted, went to Chicago after the decision in the case was made public. He holds much property there, and is grounded upon which a divorce was obtained by Mrs. Wheeler was that of cruelty.

Florence Webb of 210 Hawthorne Avenue, Jersey City, then 18 years old, visited on Nov. 5, 1908, a friend who had been married a few days before and baked a chocolate cake. Spencer Lampman, a guest who ate of the cake, decided that a girl who could make such a cake was in a kind of a wife he wanted. He told her of his decision, and they were married immediately.

The bride returned home and never lived with Lampman, commencing the marriage for several months until he sent her a letter announcing that he was going away for the benefit of his health. Her parents saw the letter and advised her to get away from the man, and she did so.

MOVING PICTURE FIRE CAUGHT BY CAMERA

Man Behind the Film Snaps the Players as They Escape from Canned Drama Plant.

SERIES OF EXPLOSIONS Scores of Actors and Actresses Make a Mad Rush from a Mimic Ballroom Scene.

One of the first persons to escape yesterday afternoon from the burning plant of the Powers Company, manufacturers of moving picture films, at 241st Street and Richardson Street, the Bronx, was Al Leach, the camera man of the concern, who was anxious to save the two instruments he was using to photograph a scene when the explosion started the fire.

Finding that he had a few hundred feet of film left in his camera, he ran to a point of vantage and, while engine after engine responded to a third alarm and the flames spread across the street, and threatened to wipe out all the frame reels that make up that part of the old village of the Powers company, he calmly turned the crank of his machine.

It was 3 o'clock in the afternoon and the light was fairly good. As the film rolled in front of the lens it caught a picture of scores of the actors, who a minute before had been dancing in a ballroom scene, scrambling out of the building, first men rushing in, attracted by the flames, and finally bursts of flame that shot across the streets, impelled by explosions that came repeatedly from inside as the metal cans containing thousands of feet of celluloid film were reached, one after another, by the flames.

Each said it was a habit with him more than anything else, but hours afterward, when the big plant and the dwelling next door were a black mass level with the sidewalk, and the ground was blanketed with soot, Leach said that the fire represented \$150,000 worth of uninsured loss, he suddenly realized that it had at least given him a valuable moving picture film, the first genuine fire picture with scores of actual scenes in it.

The fire started in the room of the plant on the top floor of the two-story frame building, which was formerly used as a warehouse for the company's horses of the mounted police. No one was sure just what caused it, but the three men who were in the room said that an explosion from an electric lamp or a cigarette caused by defective wiring had ignited a pile of papers on a table.

On the ground floor sixty actors and actresses were in the room when the fire broke out. They were in the middle of a scene in which a girl who worked on the upper floor of the plant was to stage Director Frank Leach's play, and the actors were to be in the room when the fire broke out. Some of them were in the dressing room that is immediately behind the scene.

EVANS TO TELL ALL IN OHIO BRIBE CASES

Legislator Turns State's Evidence to Escape Penitentiary After Pleading Guilty.

LEADER IN OHIO HOUSE Career in Business and Politics Ruined by Soliciting Bribe of \$100 from Salary Loan Agent of Akron.

COLUMBUS, Ohio, June 5.—Owen J. Evans, member of the House of Representatives from Stark County, went before the Grand Jury today and turned over to the grand jury his evidence in connection with the bribery case.

Evans was a member of important committees during the session, and was honored by appointment by Speaker Vining to the all-powerful Steering Committee of the House. It was the duty of this committee to pick out bills to be introduced, and Evans had therefore depended the life or death of every measure on the calendar.

Evans' plea of guilty followed quickly on presentation of a partial report by the Grand Jury, in which it handed down eight true bills. Two of these were bills to amend an act relating to the having received \$100 from L. C. Miller, the grand jury, and the other two bills were bills to amend an act relating to the having received \$100 from J. C. Sharer, also a salary loan man of Akron.

Evans was present when the indictments were returned and asked that he be arraigned at once. He was arraigned on the charge of receiving a \$100 bribe, and he pleaded guilty. His plea was made on an agreement with the Prosecutor and with Attorney General Hogan that clemency would be recommended on condition that he give evidence before the Grand Jury.

Attorney Thomas H. Clark made a plea to the grand jury that Evans had been a member of the House of Representatives for several years, and that his client was a man in poor circumstances financially, and that his father was seriously ill at Canton.

"We have had numerous offers of money to assist in Evans' trial from persons who are not anxious to see him take the immunity bath," Clark said, "but it is Evans' desire to make a clean breast of the matter. He desires to plead guilty and throw himself upon the mercy of the Grand Jury."

Judge Clark, before whom the case was being heard, said that to pass sentence and then suspend the sentence would be no sentence at all. He said that he considered the case a public service, inasmuch as he firmly believed that Mr. Evans was a man of high character, and that the Grand Jury all know him. He is not going to pass any sentence.

The Grand Jury went into session with Evans on the stand before it. All other indictments against Evans were returned until to-morrow.

You can now look out for more sensational news. He said, however, that the news was not sensational, but that the news was that the Grand Jury all know him. He is not going to pass any sentence.

Evans was close to the confidence of United States Senator Alice Follen, and was one of his chief aides in his fight for election last winter. Evans made the special election in Stark County, Ohio, and was elected as a member of the Ohio State Senate.

Evans was Chairman of the Committee on Claims against the House, and served on the Committee on Taxation, the Committee on Fees and Salaries, the Cities and Towns, and was a member of the Committee on Hospital for the Insane and the Committee on Prison and Reformatory.

Evans is married and has three children. He lost a leg when a boy and wears a cork leg. He started in life at a poor boy and by hard work had made a place for himself in the business and political life of Stark County.

JOHN BIGELOW III AT SUMMER HOME

Aged Statesman Stricken at Highland Falls and Alarm Is Felt for Him.

FAMILY MEMBERS THERE New York Physician Summoned to At- tend Him—Reported in No Immediate Danger.

John Bigelow, veteran diplomat and author, and United States Ambassador to France at the time of the civil war, is seriously ill at his summer home, The Squirrels, at Highland Falls-on-the-Hudson.

Despite the fact that the aged statesman, and his friends as well, have moved to refer to him as "ninety-three years young," that advanced age tended yesterday to make his illness more seriously regarded than it would otherwise have been, and all but one of his children were at The Squirrels with him.

At Work on His Memoirs.
Half and hearty as ever, he set to work, devoting a part of each forenoon to dictating to his secretary, and not infrequently taking up the pen to write himself.

He said last night, however, that he felt he had to do more things for himself, and if he were glasses, it seemed chiefly that he might look over them and feel proud and lively young.

His physician, Dr. Milton Powell, of 163 West Seventy-sixth Street, who has for years attended Mr. Bigelow, was summoned. He found his patient suffering from an old ailment, which, while not in itself a cause for alarm, was a source of greater concern because of Mr. Bigelow's advanced years.

At the Squirrels, however, it was said that Mr. Bigelow was recovering fairly well. Miss Bigelow declared that her husband was not only clearly and vigorously in action, but quite able to attend to his correspondence.

All his children except Mrs. Charles E. Tracy were at the Squirrels yesterday. Mrs. Tracy is not only a sister-in-law, but having sailed for Germany a few days ago.

Mr. Bigelow's son, Poutney Bigelow, was to have sailed last week for England, but at the last moment he was informed that his father's illness, he postponed his trip.

CITY'S CONFERRERS AGREED ON SUBWAYS

Decide on Report to be Submitted to Board of Estimate

NOT FINAL FOR THE B. R. T. Understand That Present Interbor- ough Offer is Rejected, but it Still Has a Chance at Subway Building.

The McAneny Committee of the Board of Estimate and the Public Service Commission agreed last night upon a policy and report on the subway problem. At a conference at the Bar Association the last Tuesday evening, the committee and the conclusion of the session President McAneny said that an agreement had been reached and that he and Chairman Williams of the Public Service Commission would whip the report into final shape for submission to the meeting of the Board of Estimate on Thursday.

The city's conferrers agreed also that nothing should be made public concerning the nature of their recommendations until the policy to be outlined until the report itself comes out.

R. L. BEECKMAN HURT IN MOTOR ACCIDENT

He and His Wife Thrown Out of Car After Running Over and Killing Intoxicated Man.

WERE ON TOUR OF FRANCE

Mrs. Beeckman Escapes Injury—Her Husband Removed Last Night to Hospital at Neuilly.

Special Cable to The New York Times. PARIS, June 5.—Mr. and Mrs. R. Livingston Beeckman of New York met with a bad automobile accident yesterday while on their way to tour the Beauce country.

While approaching the cathedral at Chartres shortly after noon yesterday at a reasonable speed the chauffeur suddenly caught sight of an intoxicated man lurching in the middle of the road a few yards after a nasty turn had been negotiated.

The chauffeur, imprisoned by the steering wheel, kept his seat, but Mr. and Mrs. Beeckman were thrown clear over his head and landed ten feet distant.

Mrs. Beeckman had an extraordinary escape. Mr. Beeckman, however, was badly injured. An arm is broken and his head is seriously cut, while there are fears of internal injuries.

The drunken man in the roadway was killed on the spot. A passing motorist conveyed Mr. Beeckman to the Hotel Monarque at Chartres, where he was attended by a physician.

Mr. Beeckman has returned to the Ritz very upset, but otherwise unhurt.

FOR LESS IMPERIAL CONTROL.

Laurier Would Permit a Dominion to Ignore British Conventions.

LONDON, June 5.—At the Imperial Conference to-day Sir Wilfrid Laurier, Premier of Canada, gave notification of his intention to introduce a resolution with a view to obtaining liberty for any Dominion of the Empire to withdraw from the operation of any treaty made by the government, without impairing the treaty in respect to the rest of the Empire.

A resolution for uniform navigation laws throughout the Empire and the employment of British seamen in British ships was adopted.

The Right Hon. Sydney Buxton, President of the Board of Trade, proposed that the Dominions co-operate with the government in the introduction of the recently organized labor exchanges to fill vacancies in the colonies.

Sir Wilfrid Laurier opposed this on the ground that it would cause friction between Canadian employers and employes.

JOHN DILLON BADLY HURT.

Well-Known Nationalist the Victim of an Automobile Accident.

DUBLIN, June 5.—John Dillon, Nationalist Member of Parliament for East Mayo, was dangerously injured about the head and back in an automobile accident last night, near Dundalk, forty-five miles northwest of Dublin.

It was at first thought that Mr. Dillon was dying, and a priest, who was hastily summoned, administered the last sacrament. The injured man rallied, however, and was removed to Dundalk, where he now lies in a hospital in a serious condition.

The automobile dashed into a culvert and Mr. Dillon was thrown through the glass screen.

FAILS TO BUDGE THE VIRGINIA

But Steamer Premier Returns to the Task—Benedict's Party Still Aboard.

HAVANA, June 5.—Attempts made this morning to pull off the yacht Virginia from the Colorado Reef by the steamer Premier failed and the Premier came to anchor. The returned immediately to the Virginia and will make a final effort to float the yacht.

Indications, however, are said to be unfavorable, as the Virginia, apparently, is hard held. E. C. Benedict and his party remain on the yacht and seem to be in no wise concerned regarding their safety. The weather remains fine and the wreck is only four miles from the port of Esperanza.

SIAM'S CROWN PRINCE SAVED

With Other Passengers on Steamer Ryazan, Ashore Near Nagasaki.

TOKIO, June 5.—The Russian Volunteer Fleet steamer Ryazan, while bound for Vladivostok, to-day ran ashore on a reef near Nagasaki.

All the passengers, including the Crown Prince of Siam, were rescued, and the Japanese warship Iwata has been dispatched to assist the Ryazan.

PLOT TO KILL THE SULTAN?

Dynamite and Bomb Apparatus Near Railway Over Which He Will Pass.

SALONIKA, June 5.—Large stores of dynamite and a complete apparatus for the manufacture of bombs have been discovered in a secluded dell in the Koprus district.

The explosives were found close to the railway over which the Sultan of Turkey will pass on his forthcoming tour of Macedonia.

MAY BE PETER THE PAINTER.

Stowaway Held at Manila—His Arrest May Embarrass England.

MANILA, June 5.—The Philippine authorities are holding a stowaway found on the British steamer Proteus, which arrived here to-day. The man embarked on the vessel at Singapore while coal was being taken on, and it is suspected that he is "Peter the Painter," the Russian for whom the British police searched in connection with the murder of three policemen in Houndsditch, of which the "battle of Sidney Street" was a sequel.

The officials of the British Consulate here, while skeptical as to whether the man will prove to be "Peter the Painter," are having him held pending an investigation. The Proteus left Liverpool on April 30 and is bound for Seattle.

For a time it was thought by the police that Peter was one of the two outlaws killed in the fighting between London police and Anarchists on Jan. 2, but later the man was reported as having been seen at various places in Europe.

If the English police ever wanted "Peter the Painter" they are now looking for him. Indeed, it would seem that they would rather not find him.

For which reasons they are believed to be high State reasons. Three weeks ago Justice Grantham was presiding over the trial in the Central Criminal Court of Jacob Peters, Yourka Duboff, John Ross and other Anarchists who were charged with conspiring to rob a jeweler's shop in Houndsditch. This charge being substituted for that of murdering the three policemen.

In the course of the trial Sir William Gribble made the following statement: "From the best of our knowledge and belief, the man known as 'Peter the Painter' has no existence in life and never had any."

It is noted after many things had occurred at the trial, among them being a statement of the Judge that it must be believed that the leaves of the London policeman on Dec. 8 last were read, one having been mortally wounded by his comrade in the riot and the other having been burned to death during the siege of the Sidney Street house in the latter January.

This statement, together with that about the mythical character of Peter the Painter, was made some time after an article had been published in The New York Times advancing the theory that Peter the Painter, whose real name is Peter Straume, was a Russian agent provocateur.

The authorities so that the British Government would join the Russian authorities in suppressing Russian revolutionists in London.

PITTSBURG'S NEW RULERS.

Governor Appoints Nine Commissioners Under the New Charter.

SPECIAL TO THE NEW YORK TIMES. PITTSBURG, June 5.—Nine business and professional men, three of them millionaires, have been intrusted with the government of Pittsburgh, to succeed the City Councilmen turned out of office under the new Pittsburgh Charter bill.

There is not a politician in the commission appointed to-day by Gov. John K. Tener, although the nine men represent the choice of Senator Penrose, Gov. Tener, and the State Republican organization.

The names were evidently made with a view to pacify the bitterness in Pittsburgh arising from the fact that the Legislature distorted certain salient features of the bill that had been calculated to bring sweeping reforms to the City Administration.

The nine men named by Gov. Tener, whose names were made public late to-night, are John M. Gohering, lawyer and ex-State Senator, who was elected on a reform ticket; D. P. Black, millionaire and President of the Real Estate Company; E. B. Babcock, President of the Bank of Pittsburgh; J. M. Woodburn, manufacturer; W. Clyde Wilkins, engineer and architect of National reputation; A. J. Kelly, of the Commonwealth Trust Company, a leading real estate expert; Enoch Raub, merchant and active in civic reform movements; J. P. Kerr, physician; Thomas Morrison, millionaire steel manufacturer; and E. S. Woodburn, a leading north-side physician and twice candidate for Mayor of old Allegheny City on party reform tickets.

This commission is vested with all the legislative functions that were held by the old council. Nearly 600 Councilmen held office by the Charter bill, thoroughly ridding the city of this method of legislative government, around which hinged the worst graft scandals and pensionary improvements in the last five years.

Successors to the nine Commissioners will be elected at large next year. Pittsburgh has been undergoing a progressive administration for two years, and these nine men are expected to continue the work of the late administration, and to be put under way by Mayor Wilkins. Magee wanted a commission that would be representative of the best citizens of the community and men whose names were particularly fitted for the big undertakings before the city at the present time.

The commissioners will receive as compensation for their services the sum of \$5,500 a year.

AUTO RIDE BROUGHT DEATH.

Chauffeur Who Took Car Without Permission Charged with Manslaughter.

SPECIAL TO THE NEW YORK TIMES. MILLBURN, N. J., June 5.—Charged with manslaughter, William F. Nelson, a chauffeur, living in Newark, was held to-day under bonds of \$2,500. It is alleged that he is responsible for the death yesterday at the range Memorial Hospital of Mrs. Anna Elwell, who had been there since Thursday night, suffering with injuries received in a collision between a car driven by Nelson and one in which were Mrs. Elwell, her sister, Mrs. Joseph H. Stranage of 11 Milligan Place, Newark, and Miss Stranage's daughter Catherine, and J. N. S. Brewster, Jr. of Elizabeth.

Mrs. Elwell was blind, feared to enter the car, and was induced finally to go riding only on the promise that it would be a short ride. Nelson is said to have raced across the path of the Elwell car at high speed. He had with him a woman companion, whose identity he has thus far refused to reveal. He is married.

At the time of the accident, which happened at White Oak Ridge and Parkside Roads, the unknown woman was heard to remark to Nelson that it was the second time their car had been ditched that day. The car Nelson drove was the property of Albert C. Hradley of Lincoln Park, Newark, and he was driving it on a permit from the Newark Police Department. The car was insured by the Flatbush Trust Company in her son.

Honest Plaza Bellboy Rewarded. Mrs. R. S. Raymond, who is staying at the Plaza, lost a diamond necklace, with gold chased lozenges attached, at dinner on Sunday. It was found later by a bell-boy named McGuffey, who took it to the cashier. Mrs. Raymond says the boy told her he had it in his pocketbook at the time, and added \$25 more to this last night.

FEAR AIRMAN BAGUE HAS PERISHED IN SEA

Started from Nice for Corsica Yesterday, and Search for Him Has Been Fruitless.

HELD THE OVERSEA RECORD

Vidart the Fourth Aviator to Reach Rome in the Paris-Turin Contest—Lo Prince Arrives at Genoa.

NICE, June 5.—It appears more and more probable to-night that Lieut. Bague, the French aviator, has met a similar fate to that of Cecil Grace, the American who was lost in the North Sea while attempting a flight from Calais to Dover last December.

Lieut. Bague, who holds the overseas flight record, left Nice on his aeroplane this morning for a trip to Corsica. The distance between the two points is a little more than 100 miles, and when nothing was heard from the daring aviator torpedo boat destroyers were sent out to search for him.

The destroyer Arbatel returned here this evening from Corsica and reported that it could find no traces of Bague. Other naval vessels are continuing the search, but it is feared that it will prove fruitless.

The aviator took carrier pigeons with him, and it is supposed that the aero plane capsized so suddenly that he was unable to get them loose. The Arbatel left here again for Corsica at a late hour to make a further hunt for the missing aviator by means of searchlights.

ROME, June 5.—Vidart, the fourth contestant to reach Rome, the end of the second stage of the 1,300-mile Paris-Rome-Turin air race, arrived this morning.

The aviator reached Orbetello, about seventy miles from the Italian capital, on Saturday. On landing he partly wrecked his machine, one wing and a propeller being broken. Vidart obtained a new aeroplane and at 7:32 this morning ascended at Orbetello and flew direct to Rome, arriving here one hour and thirty-three minutes later. The sun shone gloriously as the aviator swooped to earth within the aerodrome.

Lo Prince, a French aviator, arrived at Genoa at 6:48 A. M. The weather was magnificent, but the aviator postponed his departure for Rome pending instructions from the Aviation Committee. The Home committee telegraphically informed Lo Prince that his passage over the Italian stage of the race would not be registered, as he was not regularly entered in the contest. Lo Prince only asked that chronometer registration of his arrivals and departures along the route be taken.

Last March Lieut. Bague made a daring flight over the Mediterranean from Antibes to the little island of Gorgona, off the Italian coast. He covered a distance of 200 miles (324 miles), establishing a new record for an open sea flight. It had been his original intention to land at Ajaccio, on the west coast of Corsica, but he lost his way, and by so doing covered a greater distance over the water than he had carried out his original plan.

Wilson to Urge Commission Government. Bayonne is to be the first city to take advantage of the new law allowing cities of New Jersey to hold special elections to vote on the adoption of the commission form of government. Last night a committee of the Government by Commission Association visited Gov. Wilson at Trenton to invite him to speak in the city some time before June 23, when the election is to be held. The Governor, who was identified with the passing of the bill, will speak to-morrow night at a meeting in the Bayonne High School building.

Christmas Bird a Half-Pound Short. Ruben Goldberg, a meat dealer of 307 West 117th Street, was fined \$100 by the Justices in Special Sessions yesterday for having sold to the Department of Conservation Bureau of Weights and Measures on last Christmas Eve a turkey that weighed half a pound less than Goldberg represented it to weigh. Inspector Drengus had the turkey reweighed and seized the dealer's scales, which were found to be one-half pound in excess of the owner. Goldberg paid his fine.

LORIMER COMMITTEE NAMED.

Inquiry to be Made by Equally Divided Body—Discussing Choice of Counsel.

SPECIAL TO THE NEW YORK TIMES. WASHINGTON, June 5.—Following out the understanding between the regular Democrats and regular Republicans, the Senate Committee on Privileges and Elections to-day decided to report favorably a resolution asking the Senate to empower a sub-committee of eight members to prosecute the investigation into the fraud charges in the election of Senator Lorimer. As named in the resolution, the sub-committee consists of four Democrats and four Republicans, and is also evenly divided between the supposed friends of Mr. Lorimer and those supposed to have a predisposition against him.

The sub-committee, which with the Senate's powers conferred upon it will be in effect a select committee, reporting direct to the Senate, will consist of Senators Dillingham of Vermont, (Chairman,) Gamble of South Dakota, Jones of Washington, and Kenyon of Iowa, Republicans, and Johnston of Alabama, Fletcher of Florida, Kern of Indiana, and Lea of Tennessee, Democrats.

Messrs. Dillingham, Gamble, Johnston, and Fletcher voted for Lorimer in the last session and Mr. Jones voted against him. The three new members of the committee—Messrs. Kenyon, Lea, and Kern—are all supposed to be anti-Lorimer.

The resolution will be reported to the Senate to-morrow, and will probably be adopted without much difficulty. The resolution recites the impossibility of some of the members of the full committee leaving Washington and their other committee duties to take up the investigation in Springfield, should that be necessary, and urges the greater efficiency of the smaller body.

While the understanding by which this resolution was reported to-day was bitterly criticized by Mr. La Follette on the floor several days ago, in reality it embodies a compromise in the direction of the plan for a select committee of five new members. Three of the members are new to the Senate—and that is a percentage, according to Senate precedents. Informally the committee is already discussing the choice of counsel to conduct the investigation. While no decision has been reached, it is understood that it is considering the names of former Senator John C. Spooner, Samuel Undermyer, and former Secretary of War Jacob M. Dickenson.

McMANIGLE KNEW DELANEY. Counsel for McNamara's, However, Scoffs at Dynamiting Confession.

SPECIAL TO THE NEW YORK TIMES. LOS ANGELES, June 5.—The name of John Delaney, the structural ironworker who confessed on Saturday at Muskogee, Okla., to complicity with John J. McNamara in the marking out and blowing up of various non-union structures in the Middle West, is known to the prosecutors of the McNamara case. District Attorney Fredericks has admitted as much, but when asked whether Delaney figured in the confession of John J. McNamara he refused to make a statement.

The confession of McManigle is known to contain many names that have not been divulged. Job Harrigan, the attorney representing the McNamara brothers, upon his return from San Francisco to-day, laughed at the alleged confession of Delaney.

McManigle mentioned the name in his confession, but put—"that's all," he said.

AQUEDUCT CONTRACTS LET.

Water Board Makes Awards for Tunnels Under the City to Union Square.

The Board of Water-Supply awarded contracts yesterday for the construction of two more sections of the Catskill Aqueduct. One, calling for the construction of a circular tunnel from Aqueduct and Durand Avenues, near University Heights in the Bronx, under the Harlem River at 167th Street, near Highbridge, and thence under Central Park to Eighth Avenue and Ninety-ninth Street, went to the Pittsburg Contracting Company, their bid, \$3,500,225, being the lowest.

The other contract went to the Great Smith Company & Locker for \$4,512,000. It provides for the continuation of the same tunnel from Eighth Avenue and Ninety-ninth Street, under Central Park, to Sixth Avenue, under Sixth Avenue to Broadway and Thirty-fourth Street, and thence under Broadway to Fourteenth Street at Union Square.

GOULDS ABANDON CANOE TRIP

Got as Far as Philadelphia by Inland Waterways Route.

SPECIAL TO THE NEW YORK TIMES. PHILADELPHIA, June 5.—The storm has put a sudden end to the canoe trip which Edwin Gould and his sons were taking, and to-day they will return to New York, traveling by rail instead of water.

Mr. Gould is accompanied by his sons, Edwin, Jr., and Frank M. Gould, and by three of their friends, Arthur J. Trevellick, William Fanning, and Bryce Gray. They left New York several days ago in three canoes and reached here by the inland waterways.

This morning the canoeists expected to resume their trip. When they awoke at the Bellevue-Stratford and saw the rain they decided to postpone their journey for a time.

"We hope to make another try at a long trip later," explained Mr. Gould.

HOUSING DELEGATES VISIT THE EAST SIDE Those Attending the National Conference See Tenement Improvements.

LUNCHEON AT ALDINE CLUB Dirty Alleys Denounced by a Speaker as "Boulevards of the Abandoned"

What this city has accomplished to reform tenement house conditions was inspected yesterday morning by the delegates attending the National Conference on Housing.

The delegates lunched at the Aldine Club, in the Fifth Avenue Building, and short addresses were made on the problems of individual cities.

Frederick Lutz Olmsted read the first paper of the regular session in the hall of the Charities Building, Fourth Avenue and Twenty-second Street.

Frederick Tucker of New Rochelle spoke of the necessity for a new type of man for such posts as health officer, building superintendent or city engineer.

At the evening session Miss Emily W. Dinwiddie, secretary of the Tenement House Committee of the Charity Organization Society, now an inspector of dwelling houses for the Trinity Church Corporation, spoke of what the landlord can do to improve the tenement.

With this Miss Dinwiddie contrasted what Miss Ellen Collins accomplished in Water Street, which she converted into a tenement house by pulling down the tenement and enlarging the back yard.

Tenement House Commissioner John J. Murphy described methods of law enforcement in this city, and put stress on the difficulty in discovering the names of the owners of tenements.

WALDO CREATES A NEW VICE SQUAD

Names of Men Who Are Expected to Clean the City Are Not Revealed.

THREE CAPTAINS SHIFTED

Helahan Goes to Adams Street and May Again Become Chief Brooklyn Inspector—Change at Coney Island.

Police Commissioner Waldo gave orders yesterday for his first general shake-up in the department since his recent dissolution of ex-Deputy Commissioner Doolittle's Vice Squad. Incidentally, yesterday's orders provide for a new vice squad.

Three Captains are shifted about in Brooklyn precincts, and one Lieutenant, four Sergeants, and forty patrolmen go from the Harbor Squad to various precincts throughout the city.

Commissioner Waldo also modified two general orders which were created by Gen. Binham when he was created Police Commissioner. The new order No. 23, was practically rescinded a few days ago by an order of the new Commissioner. It provided that every member of the force should be photographed with and without his hat on his entrance into the department, and again at intervals of three years.

Both these latter rulings met with instant approval in the rank and file. Helahan, who has been in the department since he was a boy, has always objected to the photographing of officers, and he is reported to be a forerunner of his subsequent resignation to the Inspectorship of all Brooklyn.

The transfer away from Coney Island of Capt. Robinson was not so easily explained by the head-quarters. Helahan, who is reported to be a forerunner of his subsequent resignation to the Inspectorship of all Brooklyn, has been transferred to the Harbor Squad.

STOLE FOR A SPIRIT LOVER.

So said Miss Earl, who claims Earle of "Affinity" Fame as Relative. Intimating that a prison term might ensue, Miss Earl's desire to steal jewelry in the spirit world, Judge Fawcett, in the County Court yesterday, sentenced her to serve eleven months and twenty-nine days in the penitentiary. She was convicted of the theft of two diamond rings from Mrs. Mae Barcolona of 114 South Portland Avenue.

CLOSE CALL FOR AVIATOR.

Bert Heinrichs Comes to Grief in New Monoplane Quickly. Special to The New York Times.

BALDWIN, L. I., June 5.—Bert Heinrichs, who escaped death by a narrow margin yesterday in a monoplane of his own make, Arthur Heinrichs, who is associated with his brother, was on the field at the time the accident occurred. The machine is of the biplane type with the elevator in an auxiliary rudder and lifting plane. It had risen to a twenty-foot height and appeared to be going well when it began to lurch and fell with a crash to the ground.

ARMY OFFICERS TO RACE. Two Days' Series of Flat Events and Steeplechases at Belmont Terminal.

Belmont Park Terminal will be the scene on Thursday and Saturday of this week of the annual race series of the United States Army Association, the stewards of which will be Gen. Frederick D. Grant, Capt. E. B. Cassatt, and August Belmont. Seven events are carded for each day, including both flat races and steeplechases.

TOO WET TO PLAY BIG POLO MATCH

Americans and Englishmen Postpone Second Game at Westbury Until To-Day.

With the almost absolute necessity for the second postponement of the international polo series, caused by an incessant downpour during yesterday morning, adjournment was made by the committee in charge until this afternoon, when the second match will be played, weather permitting, of course.

WOMAN'S GOLF RECORD.

Mrs. Barlow of Philadelphia Qualifies at Brae Burn in 85 Strokes. NEWTON, Mass., June 5.—The record competitive score of 85, made by Mrs. Barlow of Philadelphia, was the first round of 18 holes for the championship of the Women's Western Golf Association at the Brae Burn Country Club, was never endangered during the day.

There was little or no talk about a change in the make-up of either team, and the intention last night was that the Americans would go on the field to-day hooked up as they were last Thursday.

Another agreement which was reached by the teams in Friday's match was that each player should be allowed to make his own equipment, but that the equipment should be of standard size and weight.

PRICES AND WAGES.

It would be hard to find a fairer spoken gentleman than Judge GARY, nor yet one with sounder views of both law and business.

The Judge thinks and says that prices will be unreasonably high or low, and he favors neither.

The contrary used to be held before the era of the application of the rule of reason. In the earlier days might made right, and traders had no more compunction than pirates about cutting one another's throats.

In this aspect the maintenance of prices in the public interest has a fair claim to consideration beside the contrary idea that the public interest was concerned solely in the reduction of prices.

The language especially challenges attention because it is used by the gentleman who controls what Mr. Governor calls the "greatest enemy of organized labor."

Similar work is being done with regard to the use, handling, and storage of explosives and combustibles and to the treatment of electricity.

The figures of railway travel in this city in March, published yesterday, show the familiar growth on all routes, but some unfamiliar alterations in the relations of the routes among themselves.

On the other hand it is likely that subways will ever gain a lead over the elevated roads in Brooklyn.

Method of the Steel Trust over the methods of Congress in dealing with matters of this sort in the method now undergoing current exemption.

THE CRAM APPOINTMENT.

The people of this State have become aware that they cannot expect much from Gov. DIX, but there are men who still insist that they have the right to expect that he will show common sense in his public acts.

Why did the Governor appoint Cram? Corporation influence and the desire or necessity of showing favors to Tammany are the two reasons assigned.

Both are as bad as they can be. It certainly could not have been in the hope of advancing his political fortunes that he appointed Cram.

The National Fire Protection Association, which lately held its fifteenth annual meeting in this city, is a characteristic American organization.

For the most part the directly practical work of the association is addressed to "standardizing" the innumerable inventions, methods, apparatus designed to protect against fire.

We prescribe real buildings of fire-proof construction, not shells with unprotected vertical and horizontal openings, and finished or equipped with combustibles; real fire windows, not merely sheets of glass and metal; real fire doors with fire (not ordinary) door hardware.

GOV. DIX AND CRAM.

The Executive's Appointments Have Disappointed the Voters.

To the Editor of The New York Times: I wish to commend with heartiness your short but pointed article on "Cram."

How he is—here he is, appointing Coblan, appointing Cram.

And he even realizes what he is doing for he does not wait for the demand for an explanation, but gives the explanation as an apology, while making the appointments.

Believes the New Dam is a Federal Concern for Navigation.

To the Editor of The New York Times: I would call your attention to what I consider an incorrect conclusion of your comment on the dam at Troy—10,000 water annum, would now pay for the dam, which, with the new locks, should be built by this State.

DELAY IN ELECTION OF PRINCETON HEAD

Action of the Trustees in Selecting a Successor to Gov. Wilson is Postponed.

ALUMNI WORK FOR HIBBEN Campaign in Favor of Him and Strong Opposition to President Finley of City College.

The election of a President of Princeton University is postponed. Gov. Woodrow Wilson of New Jersey has been indefinitely postponed.

It was learned on authority yesterday, however, that the committee is almost as far from an agreement now as it was two months ago.

Many of the alumni felt sure the committee would reach an agreement before this, but it is understood that the publication of the names of the two men who had started a campaign for Prof. Hibben, and that this has had the effect of delaying the committee's hands for the present at least.

Prof. Hibben is a Princeton alumnus, and President Finley has not been one time he was Professor of Politics there, forming an intimate friendship with the late President Cleveland, and a resident of Princeton.

It is possible that the committee will reach an agreement before the session opens. If so a special meeting of the trustees will be called in the summer when the new President will be inaugurated.

With the responsibility of the health and well-being of 6,000 people, the trustees are naturally slow in doing anything. It has been suggested by engineers, who should know, that the tapping of Ten Mile River would help us greatly and tide over all difficulties, but that the work would have to be begun at once, as it would take three months before it could be used.

Stocks Irregular in Less Active Trading—Possible Gold Imports Discussed.

TIME MONEY RATES HIGHER

Advance One-Quarter for All Periods—Some Cotton Options at Year's High Price.

International bankers were discussing yesterday the possibility of a gold import movement. Although firmer at the close of the day starting exchange rates fell yesterday below last week's minimum rates...

Following closely upon the very excellent cotton report of last week the cotton market yesterday rose to a new high level for the year for some of the new crop months.

Trading on the Stock Exchange yesterday was, on a somewhat smaller scale, though the few leading stocks maintained a position of considerable activity.

The general price movement was irregular, and this was true not only of the direction of the movement but also of the size of the net changes recorded at the close of the day. The local wheat market closed at an advance of three-quarters of a bushel.

Commercial paper was quoted at 3/4 @ 5/8 per cent. for two and three months, and at 3/8 per cent. for four to seven months, according to grade.

Foreign exchange rates on the points named were unchanged at the close of business yesterday.

Bar silver was unchanged in London, at 54 1/2 per ounce, and unchanged in New York, at 54 1/2 per ounce. Mexican dollars were quoted at 40.

NEW YORK CITY BONDS. Total sales, June 5, 1911. \$2,470,000. From June 1st to June 5th, 1911. \$20,300,000.

THE TREASURY STATEMENT. Special to The New York Times. WASHINGTON, June 5.—The Treasury statement issued today shows receipts and expenditures for Saturday and for the elapsed periods of the month and of the fiscal year as follows:

METAL MARKET REPORTS. The metal exchange yesterday trading continued quiet, but was active on an important amount of copper, lead and tin on the afternoon of the day.

OUTSIDE SECURITIES

Lighter Trading on the Exchange is Reflected in the Curb Market.

TOBACCO STOCK STEADY

New Great Northern and Oregon Washington issues are the feature in the Bond Division.

Lighter trading on the Stock Exchange was reflected yesterday in the curb market. This was especially noticeable in American Tobacco in contrast with the wide range of prices it has been showing since the Supreme Court decision...

The mining list was featureless. Sales of the new Great Northern bonds aggregated \$300,000, and they closed at a slight advance, at 101 1/2.

Transactions reported yesterday in the outside market, with opening, high, low and last price, were as follows:

Table with columns: Name, Bid, Ask, High, Low, Last. Lists various securities like Am. Tobacco, Am. Writing Paper, etc.

CONSOLIDATED EXCHANGE

A great deal of irregularity was witnessed in the market on the Consolidated Stock Exchange. In some sections heavy profit-taking and selling by professional who were looking for a reaction exerted a depressing effect...

THE REAL ESTATE FIELD
Apartment House Property on the West Side the Feature of the Market—Big Greenwich Village Deal Pending—Title Passes to West Presbyterian Church—Suburban Realty Active.

In the realty market yesterday the upper west side presented the chief feature of interest, showing that investment buying of apartment house property is still active. The strong demand for improved commercial property in the Greenwich Village section was illustrated by the news that negotiations are on for the purchase of the entire block bounded by Washington, Greenwich, Murray and Morton streets, rumor stating that the West Presbyterian Church is in the deal. This would involve a transaction of considerably over \$2,000,000 worth of property.

On the west side of the lake the four private residences at 542 to 546 West End Avenue, on plot 78 by W. E. D. Stokes. The buyer is a builder who contemplates erecting a high-class apartment on the site. The location is the center of some of the largest apartment house operations between Seventy-second and Ninety-sixth streets.

In the Washington Heights district the sale of the six-story Windsor Court apartment house at 4348 to 4356 Broadway, on the southern corner of Irving street, was announced, the buyer being Moses Solomon. The plot is 100 by 100. The house was erected about two years ago by the Crystal Construction Company, and it has recently been owned by a syndicate headed by Henry Harbury. The buyer gives in part payment the six-story apartment on the southern corner of Broadway and 149th Street. The deal is reported to be closed Saturday. The deal involves about \$400,000. L. J. McCowan was the broker.

A few blocks below the vacant plot on the southern corner of Broadway and 148th Street, 100 feet on Broadway and 125 feet on the street, consisting of about 1200 sq. ft., was offered for sale by William Haight to Patrick McCormack. The seller is offering the property at \$300,000. It is the only unimproved corner of Broadway between 148th and 149th streets and is to be improved with a high-class apartment house, probably ten stories high.

Greenwich Village Block Deal. Negotiations are pending, it was admitted yesterday for the large block which is being improved with two high-class apartment houses, bounded by Greenwich, Barrow, Morton, and Washington streets, the estate of Charles F. Hoffman being the property. The block is owned by C. H. Hoffman and is being sold to the Hoffman Corporation over a year ago at a little less than \$1,000,000. The deal involves a trade by the estate of the block bounded by 19th to 22nd West 87th Street, facing the property of the Hoffman Corporation. The Hoffman Corporation has also leased two floors in the building and is planning to reconstruct the entire building occupied for many years by them on Lafayette Street, which is a five-story apartment house at 270 West Ninety-third Street.

More Land for New York Central. The New York Central Railroad is reported to be the buyer of the small triangular block bounded by the Central Railroad tracks, Twelfth Avenue, 134th and 135th streets, a plot 23 1/2 by 109 1/2 by 1 by 203 1/2. The deal was knicked down by Bryan L. Kennelly. It was knicked down to Pierre Van Arsdale, who is said to represent the property of the railroad. Another plot nearby, on the southeast corner of 135th Street and 10th Avenue, 101 1/2 by 100, sold for \$51,000. The property at 101 1/2 by 100, sold for \$51,000. The property at 101 1/2 by 100, sold for \$51,000.

Second Avenue Sale Near Bridge. E. E. Tlach & Co. have sold 1,100 Second Avenue, opposite the Queensboro Bridge, for the estate of Annie Leyserson, to a client. The deal involves a trade by the estate of the block bounded by 19th to 22nd West 87th Street, facing the property of the Hoffman Corporation. The Hoffman Corporation has also leased two floors in the building and is planning to reconstruct the entire building occupied for many years by them on Lafayette Street, which is a five-story apartment house at 270 West Ninety-third Street.

Title to West Presbyterian Church. The Aeolian Hall Company took title yesterday to the West Presbyterian Church property in Forty-second Street, 19 feet front, fifth and sixth avenues, and 200 1/2 feet deep, running through to Forsyth Street. The consideration was \$1,100,000, and the buyers give a mortgage of \$850,000 for one year at 4 1/2 per cent. The last service was held in the church on Sunday, and the two buildings will now be torn down for a new office structure which will be the new home of the Aeolian Hall Company.

Justice Warren W. Foster has sold his country estate at Westport, Conn., known as Hockanum Park. It consists of 525 acres, 100 acres of which is a park, and was laid out by the late Morris Ketchum Thayer, who owned it for 20 years. Foster bought it seven years ago from the estate of his father-in-law, Justice Foster.

GIRL'S SHEET UPSETS JOHN LANE COMPANY

Complete Administrative Change Follows Mr. Lane's Hurried Trip from London.

W.A. JOHNSON NEW HEAD HERE

Directors Jewett and Maupin and Editor Lloyd Quit After Inquiry Into Woman Cashier's Theft of \$19,000.

As a result of an upheaval in the office of the John Lane Company, publishers of the most important fashion magazine in the world, a complete administrative change followed Mr. Lane's hurried trip from London.

There has been a complete reorganization of the management of the business here, which represents The Bodley Head, London. In this country, it was effected by Mr. Lane himself, who has been in this country a month looking after the affairs of the company.

The old men are out, it was said last night, because of conditions which resulted in the defalcation two months ago of the young woman cashier, Miss Susan Macomber, by which the company lost \$19,000. The young woman, who made a plea that she took the money because her aged parents were in need, is now in Auburn prison, to which she was sentenced for two years.

The administrative heads who are displaced are Rutger Bleeker Jewett, Vice President and Director, and Mr. Lane's chief executive officer in this country, Benjamin F. Maupin, Director and Treasurer, and David Lloyd, editor of the International Studio. Mr. Jewett and Mr. Maupin are out because their contracts with Mr. Lane expired about the time he was conducting his investigation, and he did not ask them to renew it. Mr. Lloyd sent in his resignation, and it was accepted.

Mr. Lane came to America as soon as he could after the defalcation and started an investigation of the office management, which could permit \$19,000 to be stolen before detection. Other directors besides Mr. Jewett and Mr. Maupin are Robert W. De Forrest and Acosta Nichols. All took part in the inquiry. Whatever the result of this investigation, the report was confirmed yesterday by Mrs. Lane, who left for London for which Messrs. Jewett and Maupin had been elected, having expired, the Directorate, Mr. Lane being the largest stockholder and so controlling the company, did not intend to renew the contracts with Messrs. Jewett and Maupin as still, it is said, stockholders. What led to Mr. Lane's resignation is not known. The resignation of Messrs. Jewett and Maupin, it is said, stockholders. What led to Mr. Lane's resignation is not known.

Walter A. Johnson, former manager of the International Studio, jumped to the Vice Presidency and Managing Directorship of the company at a meeting of the Directors held yesterday afternoon.

After this meeting it was said that while Mr. Johnson, Mr. Lane's new Vice President, formerly associated with the J. P. Libbey Company of Philadelphia, is to be in charge of the business, Mr. Maupin and C. A. Canner, sales manager of the book department, Mr. Johnson, the new Vice President of the company, an old Doubleday, Page & Co. man, with considerable experience in book and magazine publishing.

Mr. Jewett had nothing to say regarding Mr. Lane's announcement. The John Lane Company was established here fourteen years ago to represent The Bodley Head, London, besides London the International Studio, it carries on a general publishing business, and is the publisher of the "Gotham" style book.

Apprently quite satisfied with his shake-up, Mr. Lane will sail for Europe tomorrow.

TRIES TO SAVE CONVICT DIES

Prisoner, Bent on Suicide, Drags Down Younger Man.

A tragedy, quick and terrible, was witnessed yesterday by many of the convicts in Sing Sing when two of their number sank beneath the surface of the Hudson, just beyond the prison wall, one fighting for life, the other fighting just as eagerly for death. Both men were drowned.

One, an old Italian, had sought suicide and found it in the river. The other, a convict in the prime of life, whose liberty was denied to rescue him only to have his life choked out by the blows of the older man were still imbedded in the throat of the younger when the prison guards dragged their bodies from the river bed fifteen minutes after the tragedy.

The hands of the younger were clenched and his knuckles bruised from the blows he rained upon the face and head of the older man, but the blows failed to loosen the death grip.

There have been many tragedies in Sing Sing. In fact, life there is a constant tragedy. Yesterday was more terrible than any the oldest inmates or guards had ever seen. The victims were Antonio Guano, an Italian, 43 years old, who was serving a short sentence for carrying concealed weapons, and Ernest Sinclair, 25 years old, who was serving the last of a three-year term for abduction.

Guano and Sinclair were members of the "bucket gang." One of the duties of the gang is to carry refuse from the prison kitchen down through the long prison yard and dump it into the river. Half a dozen convicts were in the gang yesterday, each carrying a filled pail. A trusty marched with them, and from the turned prison wall armed guards looked down upon them. Old Guano was in the lead.

He reached the river Guano threw the bucket as far as he could into the river. Without a word, he raised his hands above his head and dropping from the bank.

Under the surface he went and when his head reappeared he made no effort to strike out for shore. Guano seemed bent on drowning and each time his head came to the surface he would duck it again. A moment after Guano plunged into the river there was another splash. Sinclair—for it was he—landed half a dozen feet away from where the other was struggling. A few strong strokes took him to the Italian, whom he grabbed by the collar and pulled toward the water.

Guano seemed to realize that a rescue was being attempted. His hands sought Sinclair's throat and his fingers closed around it before Sinclair could prevent. Both were being attacked. The trusty, however, could do nothing. Several times the fighters came to the surface struggling frantically. Then it was over.

They will be buried side by side in the little prison grounds, the man who fought for death and the man who fought for life.

NEGRO GETS ESTATE

Mrs. Hendrickson's Deed of All Her Property to Servant Sustained.

Special to The New York Times. TRENTON, N. J., June 5.—Vice Chancellor Walker filed opinions today upholding the transfer by the late Mrs. Sarah Wain Hendrickson of plantation, manor house, mill, and other real estate and \$4,000 worth of personal property, to John Wilson, a negro servant, who has been in her employ forty years. The suits were filed by relatives charging a conspiracy to defraud and revealing a family feud of twenty years standing. Mrs. Hendrickson, who died intestate in March, 1897, had several nephews and nieces. Two years before her death she deeded the property to the negro. The principal part of the property is an estate near Allentown, which had been in the family about two hundred years. The first suit was brought to have the deed set aside. It was charged that the woman was weak in mind for several years before she died and that she was wrongfully appropriated large sums of money to his own use.

Pennsylvania Shopmen Repudiate Trainmen Who Refuse to Strike.

Special to The New York Times. PITTSBURGH, June 5.—The increased bitterness in the Pennsylvania shopmen's strike has caused controversy between their organization and the other railroad brotherhoods, principally the trainmen. Having failed to get organized action by the trainmen in the behavior of the shopmen have repudiated the trainmen's methods, and the breach is widening hourly.

Through A. E. Ireland of the Grievance Committee the strikers have challenged the trainmen to debate or show cause why they should not extend the present strike to the transportation department. A joint meeting of brotherhood representatives in all the crafts in railroading was held this afternoon, but nothing definite was accomplished.

Following the shooting and rioting at Brownville Sunday night, extra precautions were taken by the Pennsylvania State Police. About 400 special policemen are on duty.

JOHNSON TAKING HIS JEWELS.

Champion Pugilist Thinks London Won't Get Them or His Gold Fillings.

Rather than get into trouble with the Custom House, "Jack" Johnson, the heavyweight champion pugilist, called at the Custom House yesterday for the purpose of registering the jewelry which he and his wife will take abroad with them. Johnson is booked to sail to-morrow on the Kronprinz Wilhelm. He went to the Custom House carrying the jewels in a bag and accompanied by the usual retinue. He was met by the collector, Mr. Lewis, who examined the jewels for the purpose of registering them. Johnson explained that his object in calling was to avoid trouble over the jewelry which his wife would bring back on their return. The pugilist smiled broadly and showed a lot of gold fillings in his teeth. When Johnson suggested that he might be afraid to carry much jewelry, the negro replied: "I guess they won't take my gold fillings."

Johnson gave his address as 8344 Wabash Avenue, Chicago. After completing his business with the Law Division, he spent several minutes checking the gold jewelry bag dumped out a pair of diamond earrings, a diamond bracelet, a pair of diamond rings, a ring of eight diamonds, a diamond watch, set with diamonds and rubies, and a diamond studded bag. "I am going to attend the coronation," he said, when asked why he was going to London.

DAVIS ESTATE MORTGAGED.

Heirs of the Late Jersey Boss Borrow \$19,325 to Repay Loans.

A mortgage for \$19,325 on the estate of the late Frank J. Davis, of Jersey City, was filed yesterday in the office of County Register John J. McMahon of Hudson County. The mortgage was given by Davis's heirs, Robert Davis, Jr., and wife, George E. Davis and wife, Joseph A. Davis, and Thomas P. Davis. Davis, the late boss, was a contractor in Jersey City, a contractor, to whom the mortgage was given. The mortgage was "justly incurred," said the County Register. This is a mortgage given to me in return for money I loaned to the Davis heirs in the last few days. I won't say whether the loans had anything to do with county affairs or not.

An investigation of the county finances was begun in May by James Cameron of Philadelphia, an auditor, who reported to the County Collectors, Mr. Egan, that the books would be balanced June 1, 1911. It is reported that the late boss had given an account for money borrowed of Egan by Davis.

DIVEKEEPER SENT TO JAIL.

Louis Buechler Goes to the Tombs and Must Pay \$500 Fine Besides.

Louis Buechler, alias "Jumbo," one of the best-known characters in the Tombs, pleaded guilty to an indictment charging him with being the proprietor of a disorderly music hall yesterday in the Criminal Branch of the Supreme Court. The place mentioned in the indictment was the Ed. Babinski resort recently closed by the Excise Department.

Justice McCall sentenced Buechler to serve thirty days in the Tombs and pay a fine of \$500. Buechler's lawyer, John J. Mallon, announced that he would appeal from the verdict to the Appellate Division.

In the case of Col. Christopher Columbus Wilson and the other officers of the United Wireless Telegraph Company, who were convicted and sentenced to terms of imprisonment for using the mails to defraud, Judge Lamont in the United States Circuit Court yesterday granted writ of error. Those writs allow the defendants to carry their appeal to the United States Circuit Court of Appeals.

For Wilson and the others will apply today to the Circuit Court of Appeals for writs of habeas corpus and writs of release. The grounds upon which the appeals will be based is the refusal of the trial court to sustain the demurrers interposed by the defendants and the refusal of the court to grant the indictments and dismiss the complaint.

St. John Chrysostom Church Mortgage. The church of St. John Chrysostom in the Bronx obtained from Supreme Court Justice Blechoff yesterday permission to mortgage its property for \$16,000 to the Empire Trust Company, to be used to buy land on which to erect a rectory.

IN NEW JERSEY.

BATONNE.—Mrs. Mary Rubinka of 220 Prospect Avenue tried to start the fire with benzene and ignited her own clothing. She ran screaming about the room and against the door. The fire department was summoned, and neighbors went to the assistance of the woman, but she died before she could be saved.

NEWARK.—William Schneider, 13 years old, of 581 West Pitt Street, Manhattan, was arrested yesterday for carrying a knife. He was charged with the murder of John Cronin, an Irishman, of Belleville, N. J., in a fight following a baseball game. Schneider declared that he stabbed Cronin in self-defense.

NEWARK.—Frederick R. Jones, 499 Warren Street, committed suicide yesterday by inhaling gas. He was found by his husband in a room with gas seeping from a jet. Pub. admitted that he and his wife had quarreled over money matters.

SOUTH ORANGE.—The Rev. Wallace B. Fleming, pastor of the Morris Memorial Church, died yesterday at his home of 286 Grove and Hobart at the Drew Theological Seminary in Madison, N. J., and will leave his wife to be buried in Orange, N. J.

PHILADELPHIA.—Seven weeks-old Lillian Schuchman, 2531 Chestnut Street, died yesterday in a hospital at Easton, Pa., from injuries received in an accident here on May 14.

TRENTON.—A young girl, 21 years old, was killed by a trolley at the intersection of Stone Street and Water Street. She was struck by the trolley while crossing the street.

CAMDEN.—William Washington, a negro Baptist preacher, was committed to jail yesterday, charged by William Taylor, a settler, with writing a letter threatening to poison Taylor, who says he has reason to believe his wife was overheard of the minister.

O'REILLY TO JAIL FOR FIVE MONTHS

Lawyer Gets Penitentiary Term, Though Whitman Urged State Prison.

TAKES HIS SENTENCE HARD

Doesn't Raise His Eyes in Court, and Seems About to Faint When He Hears His Fate.

Daniel J. O'Reilly, once a Deputy Assistant District Attorney, and now one of the counsel in the Thaw case, was sentenced yesterday by Supreme Court Justice Vernon M. Davis to five months in the penitentiary for having criminally received part of the \$25,000 worth of securities stolen from Aaron Barrows' on March 10. He was found guilty of this crime on May 24.

When called to the bar for sentence yesterday, O'Reilly, from a professional and moral standpoint as well as a very serious crime, in fact it is about as serious a crime that a lawyer can commit.

"No one has more pity for this man than I have, but he is convicted of a most serious crime, and as a lawyer he knew full well the consequences of that crime. All I believe that he is an educated man, which makes his crime a greater offense. As a lawyer he acquired skill and experience in the conduct of the people of this county when he was employed as Deputy Assistant District Attorney."

THEY'RE giving a new meaning to the word "service."

As applied to automobiles. More significance and meaning than just to use the word flatly as they used to. We think our car has had something to do with this change, for it is a common saying among all users of the Moon Car "that it gives good service." Notice the new phrasing "good service." Moon Cars have so much of the fighting quality and resistance that you might almost say they had "Determination."

Ask our representative to give you the practical demonstration of these Moon Models, and watch how steadily it keeps on. You'll find it doing the same thing season after season. Hence the expression good service.

MODEL "48" \$3,000 MODEL "30" \$1,500 (Four-Door and Torpedo \$10 Extra.)

The only sure way to get the right car for your use is to compare the various good cars—and the Moon among them. Comparison is the secret of Moon sales.

Fore-door, Torpedoes, Roadsters, Limousines and Landaus—the big Chart shows them all.
